Developing Web Applications, 2ed

By M.T. Savaliya

Paperback

ISBN: 9788126538676

Publication: [NOT PROVIDED] *publication_date*

Page Count: 424 pages

₹967.00

• Description

Building applications for the Internet is a complex and fast-moving field which utilizes a variety of continually evolving technologies. Whether your perspective is from the client or server side, there are many languages to master -- X(HTML), JavaScript, PHP, XML and CSS to name but a few. These languages have to work together cleanly, logically and in harmony with the systems they run on and be compatible with any browsers with which they interact.

• About the Author
